# THE LION AWARD

The Lion Award promotes the development of 8-14 year olds through a varied and exciting programme of outdoor activities, first aid skills and social action projects. The award supports young people's mental wellbeing, resilience and character, providing them with a safe environment to try something new and push themselves out of their comfort zone.

## MENTAL WELLBEING RESILIENCE CHARACTER

# HOW DOES IT WORK?

The award is built on experiential and reflective learning and can be delivered in 12, 24 or 36 week programmes. It offers experiences that sit outside of the traditional curriculum, designed to complement regular schoolwork and help young people with the challenges they face in everyday life.

Learning is facilitated through coaching and Cadet Vocational College instructors. They will provide constructive feedback the young people's actions and behaviours throughout the programme. The emphasis is on developing personal skills and equipping young people with resilience.

Education is not a one size fits all solution and the Lion Award helps young people find their place in the world by exploring the abilities that make them unique.

- Explore their identity and learn what it means to be comfortable in their own skin

- Feel empowered and discover new talents

“It’s so vital for teachers to be helped practically in the classroom. The children in their care are too often helped with the formal curriculum but if their children lack a sense of resilience, they will be less successful.

“Children need to be ready to learn, and many come to school, hungry, tired, and sad. We really need to know how to help all children so they have a positive mindset, ready to tackle whatever challenge comes their way.”
